1(c)(iii) BALANCE SHEET ANALYSIS

Group shareholders' funds increased \$32.0 million to \$327.9 million at 30 September 2010. The increase was mainly attributable to retained profits for the period and foreign currency translation gains.

Group total assets increased \$2.2 million to \$575.4 million. Investments in associated companies and jointly controlled entities were \$12.8 million higher as a result of equity accounting for share of profits in associates, partially offset by dividends received. Other investments increased \$0.2 million to \$10.5 million due mainly to additions partly offset by fair value adjustments. Current assets decreased \$15.5 million to \$97.6 million due largely to reduction in fixed deposits.

Group total liabilities decreased \$30.8 million to \$220.5 million due mainly to repayment of loans. Total borrowings were \$31.8 million lower at \$174.6 million.

1(d)(ii) CASH FLOW ANALYSIS

Third Quarter 2010

Net cash generated from operating activities for the quarter was \$6.1 million. In the corresponding quarter in 2009, net cash generated was \$17.1 million due to a significant improvement in working capital changes as result of payments received from debtors.

Net cash from investing activities was \$8.7 million attributable to dividends received from investments and proceeds from the capital reduction of an associated company, partly offset by cash used for operational capex and purchase of other investments. In the corresponding quarter in 2009, there was net cash used of \$7.2 million due mainly to higher capital expenditure for fit-out of the data centre at Tampines.

Net cash used in financing activities was significantly higher at \$18.8 million due to repayment of loans.

Nine Months 2010

Net cash generated from operating activities was \$12.1 million compared to \$15.0 million in the corresponding period of last year. This was due mainly to lower cash flows from operations and higher taxation paid.

Net cash from investing activities was \$18.7 million due to dividends received from investments partly offset by cash used for the acquisition of fixed assets, associated companies and other investments.

Net cash used in financing activities was \$49.4 million mainly for payment of dividends to shareholders of the company, non-controlling shareholders of subsidiaries and repayment of loans.

1(e)(ii) SHARE CAPITAL

Since the end of the previous period, the Company did not issue any share under the Company's Share Option Scheme. The share capital of the Company as at the end of the period was 552,382,537 (31 December 2009: 552,277,537) shares.

At the Extraordinary General Meeting of the Company held on 21 April 2010, the Company's shareholders approved the adoption of two new share plans, namely, the KTT Restricted Share Plan ("KT&T RSP") and the KTT Performance Share Plan ("KT&T PSP") with effect from the date of termination of the KTT Share Option Scheme. The KTT Share Option Scheme was terminated on 2 July 2010. Options granted and outstanding prior to the termination will continue to be valid and subject to the terms and conditions of the KTT Share Option Scheme.

As at 30 September 2010, there were unexercised options for 2,521,000 (30 September 2009: 2,866,000) of unissued shares under the Company's Share Option Scheme.

As at 30 September 2010, the number of contingent shares granted and not released were 180,000 for KT&T PSP and 553,500 for KT&T RSP. Based on the achievement factor, the actual release of the awards could range from zero to a maximum of 270,000 and 553,500 ordinary shares of the Company for KT&T PSP and KT&T RSP respectively.

As at 30 September 2010, the Company is not holding any treasury shares.

8. REVIEW OF GROUP PERFORMANCE

Third Quarter

Compared to the corresponding period in 2009, the Group recorded 5% lower revenue at \$28.2 million mainly due to the winding down of network engineering business and lower logistics revenue. Operating profit, however, increased 13% due largely to the contribution from the data centre in Singapore which started operations this year.

Profit before tax and exceptional items rose 18% to \$19.7 million due to higher operating profit and contributions from associated companies.

After taking into account taxation and non-controlling interests, the Group's attributable profit after exceptional items improved 21% to \$15.7 million.

Nine Months

The Group's revenue of \$80.8 million decreased 9% due largely to winding-down of the network engineering business and lower revenue from logistics offset partly by revenue from data centre business.

Operating profit improved 39% due to better operating margins in logistics and additional contribution from the Data Centre division.

Group profit before tax and exceptional items was 23% higher at \$54.9 million due mainly to the improved operating profit and higher contributions from associated companies.

Despite higher taxation expense, the Group's attributable profit after exceptional items improved by 27% to \$42.2 million.

In the opinion of the Directors, no factor has arisen between the end of the current period and the date of this report which would materially affect the results of the Group and of the Company for the period just ended.

9. VARIANCE FROM FORECAST STATEMENT

No forecast for the nine months ended 30 September 2010 was previously provided.

10. PROSPECTS

In Singapore, the Group experiences stable warehouse occupancy and growing demand for logistics services. The Group will expand its local footprint with the redevelopment and expansion of the warehouse facility at 44 Benoi. The Group's presence in the Pearl River Delta, China, will be enhanced with the completion of the Nanhai Distribution Centre. In addition, the Logistics division will move into new customer segments and continue to explore opportunities for growth.

The data centre in Ireland continues to enjoy full occupancy. In the coming months, the data centre in Singapore will see its current facilities fully committed to customers. The Group will be looking to further expand the facilities, as well as to grow through investments by the Group's data centre fund.

Notes:

- (a) The Group is organised into business units based on their products and services, and has three reportable operating segments namely Logistics, Data Centre & Networks and Investments. The Logistics division provides warehousing, distribution, container storage and freight forwarding services. The Data Centre & Networks division provides data centre facilities and co-location services, in-building network designs, network optimisation and geographical information system. The Investments division is the investment holding arm of the other telecommunications entities within the Group.
- (b) Pricing of inter-segment sales is at fair market value.
- (c) Segment assets and liabilities are those used in the operation of each segment.

14. REVIEW OF SEGMENT PERFORMANCE

Logistics Division's revenue of \$68.0 million declined 7% compared to the corresponding period in 2009 mainly due to lower revenue in Singapore. However, better operational margins, lower interest expense and higher contributions from associated companies led to an improvement of 29% in profit before tax and exceptional items at \$20.2 million. After taking into account lower exceptional loss and a higher taxation charge, the segment's attributable profit increased 38% to \$15.4 million.

Data Centre & Networks Division's revenue of \$16.1 million decreased 12% compared to the corresponding period in 2009 due to the winding down of the network engineering business. Profit before tax and exceptional items went up 15% at \$8.9 million due to operating profit generated by the Data Centre division and higher contributions from associated companies partly offset by higher interest expense. Attributable profit after exceptional items improved 26% to \$6.7 million.

Investments Division's profit before tax and exceptional items rose 20% to \$25.8 million compared to the same period in 2009 due mainly to higher contributions from associated companies, M1 and CGS Inc. Despite higher taxation expense, attributable profit after exceptional items improved 20% to \$20.1 million. Taxation expense in the corresponding period of 2009 had included a deferred tax write-back of \$1.1 million at M1.
